

## Press information Klaus Meeß, Managing Partner YUHA® GmbH

Klaus Meeß, graduate engineer  
(Dipl.-Ing.) Executive Director of  
YUHA® GmbH

Klaus Meeß, Managing Partner, joined YUHA® GmbH in 2002. As Chief Executive Engineer specialising in logistics properties, he has proved himself in the area of planning and realisation by providing intelligent solutions to logistical challenges.

Along with his technical qualifications and long-standing conceptual abilities, Meeß also benefits from outstanding coordination and communication skills as an experienced project director. YUHA® clients profit from his cost-effective planning and execution – for example, for the H&M European distribution centre in Hamburg, which was successfully completed in autumn 2008 and offers an effective storage area of 128,500 m<sup>2</sup>. Another example is the Kühne + Nagel logistics centre in Hamburg that is currently being constructed.

Klaus Meeß began his career with the study of civil engineering in Aachen, followed by a professional specialisation in logistics facilities. He gained initial vocational experiences in various large-scale projects, including the coordination and monitoring of building activities for the Altenwerder Container Terminal in Hamburg.
